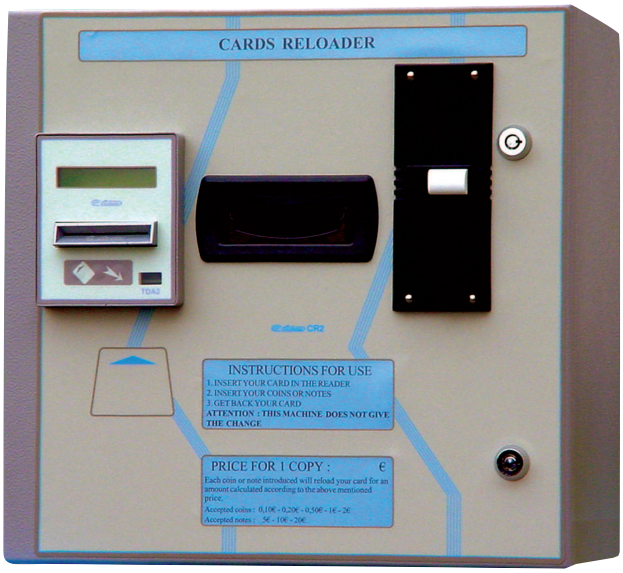
Automatic magnetic card
reloader for copiers

CARTADIS CR2

To reload cards
automatically



For a full
“self-service”
operation

The above **CR2** is fitted with a coin mechanism
and a banknote reader (ref. CR2-A)

- According to the **Cartadis CR2** chosen, magnetic cards can be reloaded against coin and/or banknote insertion (description overleaf).
- With **Cartadis CR2**, cards can be reloaded whether their credit had already been spent out or not.
- Such cards are solely intended for **Cartadis** terminals (magnetic cards), i. e. copier access control units.
- With **Cartadis CR2** and a set of **Cartadis** terminals, you can fit out a site of several copiers for full “self-service” operation.

Cartadis CR2

For checking cash and collecting sales statistics

Sales statistics can be read by the person in charge of the unit and viewed on the display screen or printed by means of the **Cartadis** printer (in option).
These data consist of:

. receipts,
. number of copies reloaded on the cards.

For setting the selling price

Cartadis CR2 is provided with a programming keyboard for determining the card reloading price.

Example of use

Cartadis equipment is especially suitable for a use in a public or in a university library.
This can be highlighted by the following example:

. a library is provided with 8 copiers equipped with **Cartadis TC4N**'s,
. a **Cartadis CR2** reloader is installed at the entrance of the library,
. the selling price of the cards reloaded by the **Cartadis CR2** is set to 0,10 € per copy.

- **A coin insertion of:**
  0,50 € loads the card with 5 copies
  1,00 € . . . . . 10 copies

3 models

CR2 : with coin mechanism only (6 different coins).
CR2-A: with coin mechanism and banknote reader (6 different coins - 3 banknotes).
